

# PROJECT ORION

*Observation, Reconnaissance, Intelligence, and Operations Network*

# DEVELOPERS

ISAIAH R. HARVILLE

*Data Scientist*

AIDAN NEEL

*Full Stack*

JACOB NEEL

*M&S Engineer*

CADEN HERREN

*Software Engineer*

# DESCRIPTION

*A versatile software platform for mission-critical applications.*

---

## Core Capabilities

- **Observation & Reconnaissance:**  
Gathers extensive real-time and historical data.
- **Intelligence & Operations:**  
Processes information for strategic decision-making.

## Potential Applications

- **Public Safety**
- **Security**
- **Environmental Monitoring**
- **Defense**

## Technology Highlights

- **Machine Learning Integration:**  
Advanced data analysis
- **Multi-Source Data:**  
Combines inputs from multiple APIs
- **Extreme Portability:**  
Completely containerized, OS agnostic and served in a web app.
